

COMING FEBRUARY 2013

RAM Manufacturing Company

We are pleased to announce our
NEW PRODUCT LINE

Cotton Gin Brushes

Cherokee, Consolidated, Continental, Lummus,
Moss, Murray, Stationary, & Skunks

Our new state of the art CNC brush fabricating equipment will allow us to produce the highest quality gin brushes at a very competitive price. As with our premium channel saws, we only use the highest quality "Made in the USA" raw materials available. We know gin machinery and the conditions in which they have to perform, and our brushes are manufactured to an exacting standard for the modern cotton gin.

You might be able to buy a cheaper brush, but not a better one !
